

M250P Technical specification

Turbo D250P	
Dimensions	920 x 1200 x 1670 x mm with stand (Maximum height)
Weight	120Kg
Recommended operating conditions;	
Operating temperature	5C – 95C
Relative humidity	45% - 65%
Continuous sound pressure.	Level at 1m distance > 80.0 dB
Electrical supply	
Compressed air supply Pressure	4 – 6 bar
Compressed air quality	Sterile clean and dry air with dew point 2C
Air consumption	100mm stroke deposit at 30 per minute would = $((0.669 \times 10) + 0.81 + 0.315) \times 30$ = 234.45 litres/ min or 8.23cfm
